

# Simplify your retirement investing

If you've had more than one employer, you could have more than one retirement account — and that may be costing you more than you know. By rolling retirement assets into a single retirement account, you could:

- **Manage your investments more easily**
- **Reduce the number of fees you're paying**
- **Leverage the power of investing through one account rather than several smaller accounts**
- **Get Nationwide's award-winning service to assist with decisions about all your retirement assets<sup>1</sup>**

Ask us how you might simplify your investing by bringing other retirement assets into your account.

This material is not a recommendation to buy or sell a financial product or to adopt an investment strategy. Investors should discuss their specific situation with their financial professional.

No investment strategy or program can guarantee to make a profit or avoid loss.

Qualified retirement plans, deferred compensation plans and individual retirement accounts are all different, including fees and when you can access funds. Assets rolled over from your account(s) may be subject to surrender charges, other fees and/or a 10% tax penalty if withdrawn before age 59½. Neither Nationwide nor any of its representatives give investment, legal or tax advice. Please contact your advisor for such services.

<sup>1</sup> Winner of DALBAR's Plan Participant Service Award for the past seven years (2014-2020).
